

Consolidation

The Adaptive Insights Business Planning Cloud enables companies of all sizes to collaboratively plan and model, easily access real-time analytics, and streamline complex reporting. You get easy, powerful, and fast software that empowers finance teams everywhere to better manage the business. It's easy, so you can plan as a team. It's powerful, so you can model anything and analyze everything. And it's fast, so you can model rapidly and adapt quickly. With this best-practice active planning process, you can plan and adapt without compromise.

Improve Process and Accuracy with Consolidation

Adaptive Insights' consolidation capabilities provide you with a fast, intuitive, easy-to-deploy, and flexible financial consolidation system to help you:

- Streamline the consolidation process by reducing manual effort and errors
- Collaborate more effectively with intuitive process tracking
- Maximize distribution of financial results by enabling real self-service
- Comply with GAAP and IFRS reporting standards
- Deploy multi-currency models

Adaptive Insights' consolidation supports an efficient and complete closed-loop process that empowers finance, accounting, and management teams to integrate the consolidation process with budgeting, planning, forecasting, reporting, and business analytics. With a single system, there is a single source of truth, ensuring data is always up-to-date. And you can see the plan in the context of your actuals.

Process Tracker streamlines consolidation collaboration

Track Processes Collaboratively

- Facilitate and monitor consolidation processes to increase accountability
- Define deliverables, assign them to users, monitor their status, and track their closure
- View task statuses with at-a-glance graphs that automatically update

Easily Integrate Actuals

- Save time with streamlined, secure, and reliable integration of actuals data
- Easily view and report on consolidated actuals data across all sources
- Separate imported actuals data from adjustments for flexible identification and security

Powerful Multi-Currency Management

- Automate currency exchange with weighted-average currency transaction and cumulative translation adjustments
- Increase flexibility with user-defined exchange rate types
- Enhance reporting capabilities by reporting any data in any currency
- Apply constant currency reporting with just a few clicks to see a more accurate picture of business performance over time, without the effects of fluctuating exchange rates

“Adaptive Insights’ consolidation properly handles any variance issues, meaning we no longer have to complete a manual, monthly eliminations process like before. Now, we upload our accounts and we are done.”

– CFO, WINSHUTTLE

Adaptive Insights

Manage Ownership Percent

- Perform what-if scenario analysis of change in ownership
- Improve data accuracy with automatic calculations
- Support IFRS and GAAP requirements to report changes in ownership as they occur

Automate Intercompany Eliminations

- Simplify and improve accuracy with an intuitive elimination rule manager
- Ensure intercompany eliminations are always in balance
- Enforce checks and balances by viewing all elimination components in one place

Journal Entries and Reclassifications

- Enforce balanced updates to actuals using journal entries
- Provide transparency for auditors
- Accommodate changes to accounting guidelines with reclassification rules

Constant Currency

- Report in constant currency
- Remove the effects of fluctuating exchange rates on business results
- See a truer picture of business performance.

More Visibility and Auditability

- Gain insights quickly by drilling into underlying details
- Use audit trail reports to find out who changed what and when
- Export lists of user permissions for Sarbanes-Oxley and audit compliance

Self-Service Reporting

- Empower business users with drag-and-drop reporting
- Generate HTML reports for real-time analysis and drill down

Streamline Allocations

- Replace multiple complex formulas with rules that are easy to create and understand
- Use rule manager to ensure balanced allocations and no circular references
- Adapt to changing rules, regulations, and company policy with date-effective rules
- Automate report packages and executive presentations
